To Whom It May Concern,

**RE: Elite Tile Finishes Group**

---

Elite Tile Finishes Group has successfully performed various projects for CentreCourt with scopes ranging in wood flooring, hard tile, carpeting and stone countertops. The most recent project completed was 411 Church Condominiums, a 39-storey condo with 572 units, where Elite provided tiling services.

Their performance has always been exceptional with respect to the quality of their installers, and as a company, Elite really goes the extra mile to ensure that their clients are happy. It is extremely evident that both Giuliano Cesario and Leyland Bailey put a great amount of effort to ensuring that progress on site is running smoothly, whether it is frequently communicating with site management or their installers, and making regular site visits personally to check-up on the quality and progress.

It has been a pleasure dealing with Elite and their respective employees, and look forward to working together on future projects.

Yours truly,

CentreCourt Construction Inc.
