To Whom This May Concern,

I hired Elite Tile to complete the supply and installation of tile, carpet and hardwood floors at two mid/high rise residential projects in the last few years. One job (Duke) has been completed and the other (Kingston & Co) is in progress. Elite's site supervision, quality workmanship and attention to detail was/is extremely good on both projects. They maintain management schedules and respond well to unforeseen changes in scope. They react quickly to issues yet exhibit few deficiencies. Elite's initial pricing was "more" than competitive and we have had very few extras from them. There is no question that I will be hiring them again in the near future.

Trusting that this meets with your approval,
