

MULTIPLEX

May 2, 2019

To Whom It May Concern:

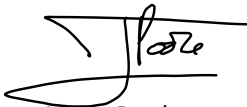

Elite Finishes Group were single sourced by Multiplex Construction Canada to provide LVT, ceramic tile, countertops and carpet on the 506 unit King High Line project in Liberty Village. MCC worked with Elite on our Core Condos project and it was on the back of this very successful project that we approached Elite.

They were proactive from the onset and worked with the CM, client and consultants to get all materials approved.

Elite responded well to any issues raised on site and were a valuable part of the team that successfully delivered the project earlier this year.

I would be happy recommending Elite Finishes Group and will certainly be using them on our future projects.

Regards

Jason Poole
