Subject: Elite Finishes Group Reference

To Whom this May Concern;

Elite Finishes Group (Elite) has and is currently working with TAS Design Build on two condominium projects for past 3 years.

They have been receptive to the needs and challenges for the supply and installation of tiles, engineered and laminate floors for our condominium projects.

Elite, their field supervisors and installation crews have provided responsive actions to meet the needs of the aggressive finishing schedule throughout the project life cycle.

We look forward to our continuing relationship with Elite Finishes Group on our next projects in the coming years.

Respectfully,

John Iwasykiw  
VP Construction
