To Whom It May Concern,

I am writing this recommendation letter for Elite Tile. During the past few years, our team has worked directly with this company on high-profile projects.

Elite Tile has provided stellar quality, service, and rates. Across the board, we are always pleased with their work and have never been disappointed in terms of quality and deliverables. I will continue to renew our contracts where applicable on future projects and would be hard-pressed to find an alternative company that can offer their calibre that has always extended through myself to the clients' observation.

For any additional comments I can be reached at (416) 668 8145

Sincerely,

Don Adams
